Shelter designer Yasuo Ozawa has a strong background in cartridge design. From 1982 through 1986 he worked with Fidelity Research, the esteemed firm known for their quality and performance in analog design. In 1986 Mr. Osawa left to establish Shelter.

SHELTER MM

SHELTER 201MM	<i>Shelter 201 MM element stereo (4 mV, load impedance <50K ohm 6.2 gram)</i>	295,00
----------------------	--	---------------

SHELTER MC 301/501/901

SHELTER 301MKIII	<i>Shelter 301MKIII MC element stereo (0.4 mV, load impedance 11 ohm 8.1 gram)</i>	995,00
-------------------------	--	---------------

SHELTER 501MKIII	<i>Shelter 501MKIII MC element stereo (0.5 mV, load impedance 14 ohm 8.1 gram)</i>	1.395,00
-------------------------	--	-----------------

SHELTER 901MKIII	<i>Shelter 901MKIII MC element stereo (0.55 mV, load impedance 9 ohm 9.1 gram)</i>	2.395,00
-------------------------	--	-----------------

SHELTER MC 5000/7000/9000

SHELTER 5000	<i>Shelter 5000 MC element stereo (0.5 mV, load impedance 14 ohm 11 gram)</i>	1.795,00
---------------------	---	-----------------

SHELTER 7000	<i>Shelter 7000 MC element stereo (0.55 mV, load impedance 9 ohm 11 gram)</i>	3.295,00
---------------------	---	-----------------

SHELTER 9000	<i>Shelter 9000 MC element stereo (0.65 mV, load impedance 10 ohm 11 gram)</i>	4.295,00
---------------------	--	-----------------

SHELTER MC ACCORD/HARMONY

ACCORD	<i>Shelter Accord MC element stereo (0.5 mV, load impedance 15 ohm 10 gram)</i>	4.795,00
---------------	---	-----------------

HARMONY	<i>Shelter Harmony MC element stereo (0.5 mV, load impedance 15 ohm 8.5 gram)</i>	5.795,00
----------------	---	-----------------
